Leave your digits here and youll get a call back within two business hours Call us at 18003197315, or have us call you. Please upgrade your browser to improve your experience. The Voyager Legend headset is now in pairing mode. Skip to the below section labeled To Pair Voyager Legend to a Different Phone or RePair to the Same Phone If your phone asks, enter four zeros 0000 for the passcode or simply accept the connection. Tap the Voice button on your Voyager Legend and say “Pair mode,” or Press and hold the Call button on your Voyager Legend until you hear “Pairing” If your phone asks, enter four zeros 0000 for the passcode or simply accept the connection. Cell phones have become essential for business communication with clients and customers because they allow you to multitask to increase productivity. Pairing allows the phone to work with the Bluetooth headset for wireless communication. Placing your Plantronics Bluetooth headset in pairing mode allows the phone to detect it. Once the devices are paired, incoming and outgoing calls can be sent directly to the headset. 1 Charge your Plantronics Bluetooth headset using the power adapter. If this is the first time youre using the Bluetooth headset, charge it fully before using it. Turn on the headset when its fully charged. 2 Activate the Bluetooth feature on your phone to start the search or discovery mode. Wait for the phone to detect the Bluetooth headset. Activating Bluetooth search varies with different cell phones, so refer to your devices manual for instructions. 3 Select your Plantronics Bluetooth headset from the list of Bluetooth devices your phone discovers. 4 Enter four zeros if the phone asks for a passcode. This automatically puts your Plantronics phone in pairing mode. The headsets LED light turns blue, indicating that the headset has been paired with the phone.
